Advanced Bloodstain Pattern Analysis Course

in-person workshop taught by Paul Kish	Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.
--	---

Advanced Skills for Managers

	Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.
--	---

Agilent Technologies

In-person or online	Installation Care and Maintenance of Capillary GC Columns - Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.
---------------------	---

In-person	Fear Factor Workshop - Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.
-----------	--

in-person	Sci-Dev Day - Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.
-----------	---

in-person	GC and GCMS Lunch and Learn - Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.
-----------	---

ANSI-ASQ National Accreditation Board (ANAB)

in person and online training	Any course offered on www.anab.org/training/forensic has been vetted. Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.
-------------------------------	---

ASCLD Leadership Academy

webinars followed by in-person

Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.

40 15

California Criminalistics Institute (CCI)

in person and online training

Any course offered on www.oag.ca.gov/ci/classes has been vetted. Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.

Center for Forensic Science Research and Education

in person and online training

Any course offered on www.forensicscienceeducation.org has been vetted. Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.

Certified Public Manager Program

Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.

Cognitive Bias and Human Factors in Forensic Decision Making

instructor: Dr Itiel Dror

Vetted for Section III points only. Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.

DACUM participation

Points may be claimed in section II.B.3

DEA Lecture Series

While not on the list of approved organizations, the workshops offered at this conference have been vetted. Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.

In-person meeting

Eastern Analytical Symposium

Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.

in-person conference

FBI CODIS training

Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.

FBI Quality Assurance Standards (QAS)

Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.

online

Foster and Freeman "ffTA GRIM3" course

Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.

Gunlearn.com

Series of 14 modules for firearms specialists. Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.

online

Impression, Pattern and Trace Evidence Symposium (IPTES)

While not on the list of approved organizations, the workshops offered at this conference have been vetted. Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.

in-person conference

Infrared and Raman Spectroscopy - Interpretation of IR and Raman Spectra

Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.

International Association of Forensic Sciences (IAFS)

While not on the list of approved organizations, the workshops offered at this conference have been vetted. Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.

International Microscopy Conference sponsored by McCrone Research Institute

While not on the list of approved organizations, the discussions and workshops offered at this conference have been vetted. Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.

in-person conference

Introduction to TCP/IP

Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.

in-person or online

ISO 17025 Standard/Auditor training

Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.

in-person or online

Justice Trax User Group

In-person meeting

While not on the list of approved organizations, the annual user group meeting has been vetted. Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements. NOTE: This course may be claimed in Section III only.

workshop

Advanced Crystal Report Training Class - Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements. NOTE: This course may be claimed in Section III only.

Kinship Analysis Training

Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.

LC/GC's CHROMacademy

online

HPLC eLearning/webcast/tutorial modules
GC eLearning/webcast/tutorial modules
Sample Prep eLearning/webcast/tutorial modules
MS eLearning/webcast/tutorial modules
Infrared eLearning/webcast/tutorial modules
NOTE: Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.

Leading at all Levels

instructed by: NC Office of State
HR

Individual Contributor Foundations
Dealing with Change
Out of the Box Thinking
Communicating with your Team
Exploring Supervision
Supervisory Foundations
Coaching for Supervisors
Leading Teams for Supervisors
Managing Work for Supervisors
Managerial Foundations
High Performance Coaching
Strategic Service Delivery

NOTE: Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.

Lean Six Sigma

in-person or online

Lean Business 100
Effective Problem Solving/Root Cause Analysis
NOTE: Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.

MAFS Leadership Symposium

Vetted as part of MAFS (an approved organization).
Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.

Mid-America Forensic DNA Conference

While not on the list of approved organizations, the workshops offered at this conference have been vetted.
Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.

National Institute of Justice (NIJ) Office of Justice Programs

online

Any course offered on www.nij.gov/training/Pages/forensics.aspx has been vetted. Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.

New England Forensic Drug Analyst Meeting

in-person

2019 Annual Meeting - Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.

NFSTC@NIU

Any course offered on www.nfstc.org has been vetted. Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.

in-person or online training

online taught by Ron Nichols

AFTE Theory of Identification - Hypothesis and Research Design	1.5
Computer-based Studies - Differentiating Toolmarks Made by Different Tools	1.5
Validation Studies - A Review of the Literature	1.5
Objectivity, Subjectivity and Bias in Firearm and Toolmark ID	1.5
Consecutive Matching Striations - Theory and Application	1.5
Subclass Characteristics - Definition, Origin, and Recognition	1.5
Machining Fundamentals - Related to Subclass Characteristics	1.5
Subclass Characteristics - Review of the Literature Part 1	1.5
Subclass Characteristics - Review of the Literature Part 2	1.5
Preparation for Daubert and Evidentiary Hearings	1.5
NOTE: Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.	

NIJ/USACIL DNA Mixture Interpretation Workshop

in-person

Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.

North Carolina Department of Justice Crime Laboratory

annual course

Clandestine Laboratory Response Certification/Recertification

North Carolina State University Forensics Symposium

in-person

Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.

8 3

Paint Data Query Workshop

Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.

hosted by National Forensic Laboratory Services - Canada

PerkinElmer Educational Workshop

Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.

in-person

Potomac Regional Symposium on DNA Forensic Analysis

While not on the list of approved organizations, the workshops offered at this conference have been vetted. Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.

in-person conference

Promega Tech Tour

Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.

RTI International, RTI forensicED, RTI Forensic Technology Center of Excellence

Any course offered on www.forensicRTI.org has been vetted. Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.

online

SGS-IPS Testing

Paper Fiber Analysis. Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.

taught by Walter J Rantanen

South Carolina Semi-Quantitation of THC in Plant Material

instructor: Douglas Robinson

Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.

STRmix Regional Training Workshops

In-service training at lab site

Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.

Topics in Forensic Science (TIFS) Conference

in-person

Forensic Biology/DNA: Current Trends and Emerging Practices - Training with a minimum of three scheduled hours is equal to one half day and a minimum of six scheduled hours is equal to one full day. Training sessions that are less than three hours can be combined to meet these minimum requirements.
